**Subject:** RE: Tradebe case

It looks like to send an Information Request Letter to Tradebe to come up as much data to determine mass balance. Some of the data might be CBI (such as amount and profits of Degreaser)

We might also ask HQ what kind of data they need to determine the exemption status. Since there is no cut-off point for the reclamation, how the data can be utilized?

We can sit down tomorrow.

Jae

Jae,

Are you in tomorrow? I've been busy preparing for a national call this afternoon and have not looked into Tradebe's SDS issue. Mike C provided me with a lot of background information that I have to read.

I can meet w/ you tomorrow anytime between 10:30 am -- 3:00 pm.

Also, Monday is wide open for me and I'll meet when it's best for you.

Thanks Jae.

Michael

**Subject:** RE: Tradebe case

Jae,

Here are the most recent quarterly reports submitted by Tradebe. I am still looking at the TSD to determine if there is any mass balance equations relating to the SDS, VRU, or Flare.

<http://permits.air.idem.in.gov/34503f.pdf>

The TSD I was referencing is on page 564 of 604. On that page is the Potential to Emit (PTE) emissions summary of the facility, the top table is the uncontrolled PTE and the bottom table is the limited PTE. The uncontrolled PTE for the SDS-VRU is 2,328 tons/year of VOC and the limited PTE is 23.4 tons/yr VOC. Tradebe is permitted 23.4 tons/yr VOC emissions from the SDS VRU.

Kevin, Nice to talking with you.

Please email me your version of air permit.

I will give you call on Wednesday, 10/5/16, 2:00 pm, CDT.

Thank you

Jae
